MATERIA

SEALANTS

Matter meets surface and merges with it, resulting in the new ADESITAL sealants, which interpret the nuances of stone, wood, cement and the world of colours.

FUGAMAGICA® ZEROSEI MATERIA 40 COLORS

Water-repellent cement-based decorating sealant for grouting 0-6 mm joints between ceramic tiles.

- 40 colours in the 4 collections: LEGNO, COLORE, CEMENTO, PIETRA.
- Classified CG2WA according to the norm EN13888: the highest mechanical and performance features.
- Classified EC1 Plus. With very low emission of Volatile Organic Compounds (VOC) to safeguard indoor health.
- Water-repellent. They contrast the water passage and keep substrates dry.
- They contrast rising efflorescence and decrease the risk of unpleasant floating.

- Resistant to UV rays. Colours do not fade nor change upon exposure to the light.
- Resistant to alkali and detergents keeping their aspect unchanged in time.
- Resistant to the formation of mildew.
- They contrast the formation and development of mildew in humid settings.

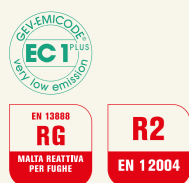

Packages: 25 kg bag - 4x5 kg box - 4x2 kg box

ADEPOXY MATERIA 10 COLORS

Valuable two-component epoxy grout for grouting ceramic and glassy materials.

- Smooth finishing.
- Classified RG according to the norm EN 13888.
- Classified R2 according to the norm EN 12004.
- Classified EC1 Plus. With very low emission of Volatile Organic Compounds (VOC) to safeguard indoor health.
- Easy to clean. The product can be cleaned with water alone immediately after installation.

- Colours unaltered over time.
- Colour hues do not fade nor change upon exposure to the light.
- High resistance to acids and chemical compounds. The product has high hygienic characteristics.

Packages: 3 kg drum - comp. A 2.7 kg / comp. B 0.3 kg

ADESIL MATERIA 24 COLORS

Solvent-free silicone sealant with acetic cross-linking.

- To seal joints between ceramic and sanitaryware and between ceramic and ceramic.
- Resistant to the formation of mildew, it contrasts the formation and development of mildew in humid settings.
- Conform to EN 15651-1, EN 15651-2, EN 15651-3.
- Classified EC1 Plus. With very low emission of Volatile Organic Compounds (VOC) to safeguard indoor health.

Packages: 310 ml cartridge - 12-piece box
